Introduction

We have created Cinema Seat Booking App using Java with Netbeans IDE 17 and Xampp using the phpmyadmin as the database.

HISTORY PAGE

Dompet Pintar

History

Add Balance Transfer TopUp

The History page of the Dompet Pintar app. The title 'History' is at the top left. Below it is a horizontal menu bar with three items: 'Add Balance', 'Transfer', and 'TopUp'. The main area is currently empty, showing a light gray background. On the far right, there is a circular arrow icon. The left sidebar contains navigation links: 'Dashboard' (with a person icon), 'Transaction' (with a dollar sign icon), 'Top Up' (with a credit card icon), 'History' (with a grid icon, which is selected), 'Account' (with a person icon), and 'Exit' (with a door icon). The background of the main content area features a blue gradient with a decorative illustration of a woman sitting at a desk, surrounded by icons related to finance and productivity like a calendar, a clock, and a clipboard.
